Notification of Voluntary Recall for Lithium Batteries used in Protexus Handheld & Protexus Backpack Electrostatic Sprayers

Dear Valued Customer,

This message is a Notification of a Voluntary Battery Only recall in accordance with Consumer Products Safety Commission (CPSC) regulations. In rare cases, certain battery packs used in Protexus-brand handheld and backpack electrostatic sprayers can overheat and pose a fire hazard that may result in property loss or personal injury.

If you are an owner of a Protexus Sprayer that may be affected by this recall action, we assure you that we are addressing this issue as quickly as possible to ensure our product is consistent with the quality we expect and our customers deserve.

You'll find all relevant information regarding this recall at the below link or you can [view these images](#) to see if your battery is affected and eligible for replacement. Please follow all instructions to ensure you receive your free replacement battery promptly. Please be sure dispose of your old battery responsibly.

Our top priority is ensuring the safety of our customers. We appreciate your patience and understanding as we work hard to resolve this situation.

Thank you,
Earthsafe Chemical Alternatives
